

September 2021 Update

COVID may have caused some changes in the way we serve the people of Honduras but it has not caused us to stop! We are **grateful for the continuous support** that has allowed us to continue to **provide help to the poor families in rural communities of Honduras** through:

- * Distributing deworming medicines and prenatal vitamins
- * Providing concrete floors in homes
- * Educating communities about healthy hygiene and habits
- * Helping children with malnutrition
- * Providing food and necessary supplies
- * Distributing water filters for clean, healthy water
