

## Leading an Enriching Life at The Community at Rockhill

Whether enriching existing passions or cultivating new ones, residents at The Community at Rockhill encounter many opportunities for enrichment and entertainment. Their wide variety of activities, many driven by residents themselves, promote intellectual growth, friendships, physical fitness and more. The monthly calendar created by the Life Enrichment and Activities staff offers programming that is fun, sociable, mentally stimulating and physically active. Residents are welcome to choose any and all activities that interest them.

Over the past year, residents have performed for their friends and neighbors, created holiday decorations, learned to paint, celebrated Active Aging Week with five days of fun physical fitness, discovered the history of Egypt with “Dr. Steve” from the University of Pennsylvania, along with multiple other educational lectures. And our enrichment activities aren’t limited our independent living residents. Our personal care, memory care and health care residents also enjoy a full calendar of activities. This year, among other things, they enjoyed an Earth Day Scavenger Hunt, a special couples’ event for Valentine’s Day, Easter celebrations and Father’s Day and Mother’s Day luncheons.

For photos and information showing life at Rockhill, we encourage you to [visit our Facebook page at www.facebook.com/rockhillcommunity](https://www.facebook.com/rockhillcommunity) or our [Instagram page at www.instagram.com/communityatrockhill/](https://www.instagram.com/communityatrockhill/)

## Nursing Home Honors

For the fourth straight year, we are proud to be named a “U.S. News Best Nursing Home,” this time for 2021-22! Just under 3,000 nursing homes in the country earned this designation. Homes received their overall rating based on a rating for short-term rehabilitation care and a rating that evaluates long-term care which is for people who need ongoing daily care. A strong emphasis was

placed on staffing, as staffing levels are strongly associated with quality and safety.

In addition to the Nursing Home honor from US News, our **Skilled Nursing Unit** was found **Deficiency Free** by the PA Department of Health during their annual survey for the second year in a row! Deficiency Free surveys are quite unusual and are a reflection of the hard work, commitment and daily care expressed by our entire team through-out every related department.
