

Report to the 2022 Mosaic Mennonite Conference  
Michelle Rassler, CEO, Frederick Living

Frederick Living has had a very full 2022. Due to a failure in the sewer system, our skilled nursing building was closed, and the residents transitioned to another area of our campus. The building had been built in the 1970's and needed a significant investment for it to be viable moving forward. The board approved for the building to be demolished. The demolition should be complete by the end of 2022.

Our Lighting the Way capital campaign ended successfully, and we celebrated the generous giving of all our donors with a beautiful donor wall display.

We celebrate the many ways that we can come together as a community and live out our values of Respect, Integrity, Compassion and Excellence. We praise God for His continued faithfulness.
