

# Healthy Niños Honduras

## 2022 Update

Throughout the COVID-19 Pandemic, we have continued to adjust our programs to serve the people in Honduras more safely and efficiently.

We have expanded our Food Relief program by providing food to rural families that are in desperate need, as well as implementing the Mobile Nutrition Center, to bring our Center to the people. In addition, our warehouse is now fully operational, and we've been able to hire more staff as our ministry grows.

**This year we are celebrating our 5th year as HNH and everything we have accomplished in Honduras. We are so grateful for all of our donors, including the Mosaic Conference, for continuing to support us in our mission to serve others who are less fortunate. So, **THANK YOU**, and here's to another great year!**
