September 2026 Update

We are excited to share with you the new look of the Nutrition Center after the completion of the renovations. These improved spaces were created for the families and children who come to the Center. Many who, because of their economic and social circumstances, have never had the opportunity to experience a place like this.

Every detail of these renovations represents an investment in the lives of the children and families we serve. The Center is now better prepared to provide a safe and welcoming environment where children can receive nutritional support, medical care, and the love and encouragement they need during their recovery.

We look forward to seeing these new facilities filled with children recovering their health, families finding hope, and lives being changed through God's love for many years to come. We pray that every family who walks through these doors will leave encouraged and strengthened for the journey ahead.
